

Methownet, LLC – Connecting the Methow Valley since 1995

Newsletter, August 2025

Commonly asked Fiber Project questions

- ❖ Can I still get service if I missed the sign up? Yes! After the build is complete, we can add new users at a cost TBD. Call us!
- ❖ How do I know if I'm on the list? Call us anytime. We'll take a gander!
- ❖ When will repairs within the construction area be made?
 - We are walking the construction area every day and talking with property owners and contractors to resolve concerns.
 - We are making best efforts to restore your property to like condition before the project is concluded.
 - Call us any time 509-996-2022

Better Together!

It's like milk & cereal, flipflops & shorts, rocking chairs & porches. Some things just do better together, like an electric cooperative and a rural internet service provider!

Benefit Buddies

- ✓ Better coordination during outages and emergencies. The Internet is a lifeline! We take resilience seriously and continue to invest in a robust, fire-ready network for the valley.
- ✓ Planning network service just got easier with access to power poles, underground conduit, bucket trucks, and a crew of experienced linemen.
- ✓ We're working on combining billing efforts for everyone to benefit from the smooth transition to a fiber optics service with capital credits in the future.

Can our service be improved?

If you are experiencing any internet slowness, give us a call - let's fix it! New summer plantings, tree growth, and even the wayward parked RV can block your signal. Don't suffer, call us!

Community Resources

- ✓ PUD Fiber Demonstration at the Okanogan County Fair
Visit the Okanogan PUD and 4H tables to see fiber in action at the Okanogan County Fair, September 4-7
- ✓ Tech Tuesdays at the Winthrop Library - Get tech savvy with Methow At Home. Visit <https://www.methowathome.org/events> for info and to register

As always, we are here to help. Call anytime. We appreciate you! Methownet, LLC 509-996-2022
